PROFILE

Full-Stack Web Developer with experience in developing modern web applications. I specialize in React, Next.js, and Spring Boot technologies, and I have experience developing CMS systems.

WORK EXPERIENCE

Pgames.cz   **April 2025 – July 2025**
Full-Stack Web Developer
- Created a fully functional website and dashboard for Minecraft server players.
- Implemented a ticket system for easy communication with management and bug reporting.
- Developed features for user account management and displaying game statistics on the dashboard.

QPlay.cz   **October 2023 – March 2024**
Full-Stack Web Developer
- Worked on the official player dashboard website.
- Implemented secure OAuth login using Discord, which simplified access.
- Developed and optimized internal tools for easier backend management.
- Collaborated with the team on developing new features.

EDUCATION

Secondary Technical School of Electrical Engineering – Prague 2   **2024 – Present**
- Field of study focused on Information Technology.

SKILLS
